If you are interested in what the Carpenter's Union has to offer you as a profession, this event is for you. Tour our main building of 180,000 square feet and our Annex with 80,000 square feet.

See what the carpentry trade has to offer those individuals that love to work with their hands.

At this event, you can get information about our apprentice program; talk to professional carpenters about their trade; see demonstrations and exhibits from major tool manufacturers; enjoy the food and refreshments provided and have the opportunity to win some of the hundreds of raffle prizes to be given out at this free event.

Everyone is welcome!
